

Sales Monitoring System - MVP v5

Konsep

Aplikasi web mobile friendly. Dashboard menjadi halaman utama. Data berasal dari upload harian tiga file Excel (IN, VALID, BACKLOG). Setiap upload terbaru akan menggantikan data sebelumnya dan dashboard langsung diperbarui.

Role

Koordinator: Login, Upload Data, Dashboard, Settings.

Officer (fase berikutnya): Login Nama + PIN, melihat dashboard pribadi.

Struktur Menu

- Dashboard
- Upload Data
- Settings
- Logout

Dashboard

Dashboard terdiri dari empat tab utama:

- Overall
- IN
- VALID
- BACKLOG

Saat tab berubah, seluruh KPI, chart, tabel, ranking, dan detail data ikut berubah.

Layout Dashboard

- 1. KPI Cards
- 2. Global Filter
- 3. Trend Chart
- 4. Pie Chart Segment
- 5. Dealer Performance
- 6. Officer Performance
- 7. Daily Monitoring
- 8. Detail Data

Global Filter

- Tanggal
- Dealer
- Officer
- Segment

- Pengajuan
- Status
- Search Nama
- Search No Reg

Filter berlaku untuk tab Overall, IN, VALID, dan BACKLOG.

Isi Setiap Tab

Overall: KPI IN, VALID, BACKLOG, Conversion, Growth, seluruh chart dan tabel gabungan.

IN: Menampilkan KPI IN, Trend IN, Dealer IN, Officer IN, Daily Monitoring IN, dan Detail Data IN.

VALID: Menampilkan KPI VALID, Trend VALID, Dealer VALID, Officer VALID, Daily Monitoring VALID, dan Detail Data VALID.

BACKLOG: Menampilkan KPI BACKLOG, Trend BACKLOG, Dealer BACKLOG, Officer BACKLOG, Daily Monitoring BACKLOG, dan Detail Data BACKLOG.

Upload Data

Halaman Upload memiliki tiga section terpisah: Upload Data IN, Upload Data VALID, dan Upload Data BACKLOG.

Koordinator memilih tanggal data, mengunggah ketiga file, lalu klik Proses Dashboard.

Sistem memvalidasi file, mengganti seluruh data lama (replace), lalu memperbarui dashboard.
